

## **11OVER10**

### *Down Giant*

#### **Chorus**

11 over 10 gotta push my stride  
There ain't no looking back, I got my eyes on the prize  
11 over 10 and I'm coming back to life  
Every day I live is a day that I die

#### **Verse 1**

11 over 10, I ain't never gonna quit  
I'm burning in the flame, but my father's gonna finish it  
And when I come out, I'll be gold like spit-shine  
I'm far from the old life and now I'm making big strides  
Cuz I'm a new man, the perishable has been devoured by the lion  
I'm about to start my finest hour, I'mma be the  
2.0 horsepower hard-rock tower, kickin' the habit  
Into the casket, without thinking of being a coward

#### **Verse 2**

Homies pipe down if you're just gonna try to stop this  
I've heard enough mediocre arguments to get me off this  
God cares about who's sittin' in your crosshairs  
You pick a side there ain't no in-between, so now I swap this  
Minute of pleasure for an hour of pain  
So I can kick addiction and cleanse my brain  
I get the taste of victory so I scream and grit my teeth  
There ain't no turning back, no there ain't no turning back for me

#### **Verse 3**

Well you'd think that by now I would be finished  
But there's no option for turning around once I begin it  
I've got his name on my chest, and I ain't gonna waste a breath  
Until the test ends, the best breath has yet to exit  
You say I've got some loose screws (haha), well  
That's what they said about the King of the Jews  
I'm dripping sweat and pushing limits but don't get it confused  
This is all YAHWEH over me, now that's the truth
